

ABSTRACT

5 A stable skin care product comprising a first composition comprising about
0.001% to about 10% of a retinoid; a second composition comprising about
0.0001% to about 50% of at least one retinoid booster; a first compartment for
storing the first composition, wherein the first compartment keeps the first
composition out of contact with oxygen; and a second compartment for storing the
10 second composition, the first and second compartments being joined together.
